

Presentation

The “Domaine de Diana Dea”, with its 150ha, is nestled on the hillside of Sainte-Anne on the east coast of Reunion Island.

The Diana Dea Lodge is totally integrated in its natural and authentic environment and can be considered as a stage hotel or an exceptional place for you to enjoy a short stay,

It is possible to hike on the land for about 3 hours towards the Volcano with its stunning view at 180 degrees... countryside and the ocean, a preserved nature, a total silence. About 100 deers are still living on the site.

The geographical situation of the lodge is ideal for discovering the eastern coastline and its high lights. 45 minutes from the airport Roland Garros, the small harbor of Sainte Rose, the “La Plaine des Palmistes” and the primary forest of Belouve, the unique site of the lake “Grand Etang”, Takamaka, the cirque of Salazie and the beautiful village of Hellburg are within 30 to 40 minutes driving time.

Decoration – Atmosphere

The large lobby and lounge, with its central fireplace, its rustic leather furniture and cow rugs gives the bar a special cozy touch, inviting the guest to enjoy a quiet moment around the fire place.
